### First Aid for the USMLE - McGraw-Hill Professional

Treatment for first aid incidents includes cleaning minor cuts, scrapes or scratches, treating a minor burn, applying bandages or dressings, cold compress, cold pack, ice bag or splint. First aid incidents are recorded when first aid treatment is required as a result of a work-related injury. The recordable first aid incidents are usually referred by accident rates, and are one of the many items that can be used for measuring past performance.

### What are First Aid Incidents? - Definition from Safeopedia

In some cases, first aid consists of the initial support provided to someone in the middle of a medical emergency. This support might help them survive until professional help arrives. In other...

### Introduction to First Aid - Healthline

First aid is required in many ways, shapes and forms. It is always a good idea to have basic first aid skills just in case you need it yourself, or someone needs it around you. Here is a list with the 8 most common injuries requiring first aid and what you can do when an accident like this occurs. Cut/Scrape

### 8 Of The Most Common First Aid Injuries

Chapter 2 Immunology only has 13 cases. Given that there aren't many to begin with, nine of those cases are microbiology. All recent versions of First Aid would categorize these cases as microbio as well. Chapter 3 Microbiology is a very large topic, so adding the nine cases to the existing 49 cases is fine.
