Charlie and Suzanne are investigating security controls on other websites with the aim to evaluate the existing solutions. Charlie is sure that he will identify some websites with poor security controls. In fact, he thinks he may even be able to break into their web servers—all in the name of research, of course.

out using two different keys.

Lecture 12: Public-Key Cryptography and the RSA Algorithm ...

Course Outline This course is an introduction to the broad field of information security. We will cover both computer security (including such topics as security policies, access control, viruses,

Download Free Homework

etc.) and network security (such as protocols for maintaining confidentiality of email or for secure web transactions). Note that there is not always a clear dividing line between the two areas.
