Booktastik has free and discounted books on its website, and you can follow their social media accounts for current updates.

The Singing Neanderthals Origins Of

Faced with difficulties of such daunting scope, Steven Mithen remains undaunted. In his 1996 book, *The Prehistory of the Mind*, he argued that both the origins of thought and the origins of human language are natural outcomes of evolution. But according to the first chapter of Mithen's latest work, *The Singing Neanderthals*, that story was incomplete. What it neglected was the central role of music in the psychosocial makeup of our species... 'Without music,' Mithen writes, 'the prehistoric ...

The Singing Neanderthals: The Origins of Music, Language ...

Despite the title, Mithen is not arguing that bands of Neanderthal were roaming the tundras of Northern Europe 100,000 years ago breaking out in Gilbert & Sullivan tunes. Rather, he's taking up the incredibly complex relationship between our physical evolution and our capacities for language and music.

The Singing Neanderthals : The Origins of Music, Language ...

Mithen appreciates that musical behavior may have had more than one adaptive function—and admits that, at least in *Homo ergaster* (a common ancestor of both neanderthals and sapiens), “singing and dancing may have provided both indicator and aesthetic traits for females when choosing mates” (p. 187).

Book Review: The Singing Neanderthals: The Origins of ...

However, a general consensus that the Divje Babe flute is actually a musical instrument has been growing as the view of the Neanderthals from subhuman brutes to more sophisticated humans is changing. In 2008,

another discovery was made – a bone flute in the Hohle Fels cave near Ulm in Germany dating back 43,000 years.

The Singing Neanderthals: The Origins of Music, Language ...

Neanderthals did indeed have a complex vocal communication system, but it was a type of Hm-mmm rather than language. Another type of Hm-mmm was used by the immediate ancestors of Homo sapiens in Africa, both having originated from a 'proto-Hm-mmm' used by a common ancestor. The Singing Neanderthals examines and inter-

Review Feature all - Dartmouth College

Neanderthals are an extinct group of fossil humans that appeared in Western Eurasia in the mid-Middle Pleistocene and shared the stage with the first modern humans arriving in Europe from around 45,000 years ago, before disappearing from the fossil record around 40,000 years ago.
